Abstract: NRC and Agreement State licensees are required to make inventory and accounting reports on DOE/NRC Form 741 for certain source or special nuclear material, or for transfer or receipt of 1 kilogram or more of source material. Licensees affected by Part 75 and related sections of Parts 40, 50, 70, and 150 are required to submit DOE/NRC Form 740M to inform the US or the IAEA of any qualifying statement or exception to any of the data contained in any of the other reporting forms required under the US/IAEA Safeguards Agreement. The use of Forms 740M and 741, together with NUREG/BR-0006, Revision 6, the instructions for completing the forms, enables NRC to collect, retrieve, analyze as necessary, and submit the data to IAEA to fulfill its reporting responsibilities.
