Washington, DC 20036

In the Matter of  
DUKE ENERGY CORPORATION  
(Catawba Nuclear Station Units 1 and 2)  
Docket Nos. 50-413-OLA, 50-414-OLA

Dear Ms. Curran:

This responds to your electronic message from November 24, 2004 requesting any documents relating to NRC-sponsored force-on-force exercises conducted as part of the pilot force-on-force program. I have been informed that no exercise report was produced as part of the pilot exercise conducted at Catawba and that the only document that is, arguably, responsive to your request is the SECY paper on the pilot force-on-force program, which, pursuant to the Board's order in the instant case, you will have access to shortly.

Sincerely,

*/RA/*  
Antonio Fernández  
Counsel for NRC staff
