NUCLEAR REGULATORY COMMISSION  
REGION IV  
611 RYAN PLAZA DRIVE, SUITE 400  
ARLINGTON, TEXAS 76011-4005**

December 2, 2004

Mr. Fabio Hernandez  
2601 Del Rosa Ave.  
Ste 205-J  
San Bernardino, CA 92404

SUBJECT: NRC LICENSE APPLICATION

Dear Mr. Hernandez,

Please find enclosed your returned NRC License application and check for \$720.00. It appears that you require a California Radioactive Materials License in lieu of an NRC Radioactive Materials License, because NRC does not have jurisdiction within the state of California, except exclusive Federal jurisdiction, such as military bases or national parks or forests, within the state of California. The contact with the state of California is:

Mr. Ed Bailey, Chief  
Radiologic Health Branch  
P.O. Box 997414  
MS 7610  
Sacramento, CA 95899-7414  
(916) 440-7899

You may want to contact the Radiologic Health Branch initially to obtain a Licensing contact, because the state may be aligned into separate licensing regions.

If you determine that you require an NRC radioactive materials license in the future, I have enclosed NUREG 1556, Volume 1, Revision 1, "Programs-Specific Guidance about Portable Gauge Licenses" for your reference.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC document system (ADAMS). ADAMS is accessible from the NRC Web site at:  
<http://www.nrc.gov/reading-rm/adams.html>.

Please contact me at (817) 276-6552, if I can be of any further assistance.

Sincerely,

/RA/

Rachel S. Browder, Health Physicist  
Nuclear Materials Licensing Branch
