Re: Change in the university's Radiation Safety Officer

Dear Mr. Thompson,

The university is requesting the removal of Megan G. Marks, Ph.D. as the Radiation Safety Officer as of December 1, 2004. At this time, we would like to submit Madelyn G. Miller, MPM to be listed as the university's Radiation Safety Officer so that the university can search for an appropriate replacement for Dr. Marks. Ms. Miller is the Director of EH&S for the university and in the past has been named the Radiation Safety Officer during similar interim, search periods.

Thank you for your time and efforts. If you require additional information, please contact me at (412) 268-4126 or Ms. Miller at (412) 268-1337.

Regards,

Phil Campbell, Ph.D.

Radiation Safety Committee Chairperson

Cc: Mark Kamlet, Provost
Duane Adams, Vice Provost for Research
Phil Campbell, RSC Chairperson
Madelyn Miller, Director Environmental Health and Safety
Megan G. Marks, Radiation Safety Officer
