

December 6, 2004

Mr. J. Morris Brown, Vice President, Operations
United States Enrichment Corporation
2 Democracy Center
6903 Rockledge Drive
Bethesda, MD 20817

SUBJECT: PORTSMOUTH GASEOUS DIFFUSION PLANT - REVISION TO
IMPLEMENTATION OF INTERIM COMPENSATORY ORDER

Dear Mr. Brown:

In accordance with your application dated August 24, 2004, and pursuant to Part 76 to Title 10 of the Code of Federal Regulations, your request to modify the methods used to implement the Interim Compensatory Measures (ICMs) required by U. S. Nuclear Regulatory Commission (NRC) order dated June 17, 2002, at the Portsmouth Gaseous Diffusion Plant, is hereby approved.

The NRC staff has reviewed the request by the United States Enrichment Corporation (USEC) to allow public access to portions of Perimeter Road that surround the Portsmouth Gaseous Diffusion Plant operated by USEC near Piketon, Ohio. The NRC staff found that the proposed security changes to allow the opening of portions of Perimeter Road are acceptable, and are in accordance with current regulatory requirements and the NRC's June 17, 2002, Interim Compensatory Measure Order for the Portsmouth site.

The details of USEC's request, and the basis for NRC's approval, are classified and not available for public review.

If there are any questions regarding this action, please contact the Project Manager, Dan E. Martin, by telephone at (301) 415-7254 or via e-mail to dem1@nrc.gov.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Please note that on October 25, 2004, the NRC suspended public access to ADAMS, and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the Public Document Room pending resumption of public access to ADAMS. The NRC Public Document Room is located at NRC Headquarters in Rockville, MD, and can be contacted at (800) 397-4209 or (301) 415-4737 or pdr@nrc.gov.

Sincerely,

/RA/

Gary S. Janosko, Chief
Fuel Cycle Facilities Branch
Division of Fuel Cycle Safety
and Safeguards
Office of Nuclear Material Safety
and Safeguards

Docket No.: 70-7002
Certificate No.: GDP-2

cc: Steven A. Toelle, USEC-Headquarters
Randall M. DeVault, DOE-Oak Ridge
Patrick Musser, Portsmouth
