Jacksonville, FL 32256

Subject: Amendment No. 03, Renewing Exempt Distribution License No. 09-23745-01E (Mail Control No. 022434)

Dear Mr. Markert:

Enclosed is Amendment No. 03, renewing NRC License No. 09-23745-01E in its entirety.

Please review the enclosed document carefully and be sure that you understand all the conditions. If there are any errors or questions, please contact me so that appropriate corrections and answers can be provided.

The U.S. Nuclear Regulatory Commission (NRC) expects licensees to conduct their programs with meticulous attention to detail and high standard of compliance. Please be advised that you must conduct your program involving radioactive materials in accordance with the conditions specified in your NRC license, representations made in your license application, and other rules, regulations, and orders of the NRC, now or hereafter in effect, to include the following:

1. Comply with applicable NRC regulations in 10 CFR Part 30, "Rules of General Applicability to Domestic Licensing of Byproduct Material"; 10 CFR Part 32, "Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material"; and other applicable regulations.

NOTE: Licensees authorized to distribute or initially transfer products containing byproduct material must also possess a valid possession license issued either by NRC or an Agreement State(s) which authorizes possession and use of byproduct material.

2. Distribute only those products containing radioactive material which are specifically authorized in your license.
3. Notify NRC in writing within 30 days of any change in mailing address.
4. Request and obtain a license amendment before you:
  - a) Change the name or ownership of your organization;
  - b) Change location(s) of distribution of products identified on the license; or
  - c) Any other changes in your program which are contrary to the license conditions or representations made in your license application and any supplemental correspondence with NRC.

5. In accordance with 10 CFR 30.36(d), notify NRC promptly, in writing, and request termination of the license if you plan to permanently discontinue activities involving distribution of products containing radioactive material.
6. Submit a complete renewal application or termination request at least 30 days before the expiration date on your license. You should receive a reminder notice approximately 90 days before the expiration date, nonetheless, you will be responsible for a timely renewal submission. Continued distribution of products containing radioactive material after your license expires is a violation of NRC regulations.

You will be periodically inspected by NRC. Failure to conduct your program in compliance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC may result in enforcement action(s) against you. This could include issuance of a notice of violation; proposed imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in NUREG-1600, "General Statement of Policy and Procedures for NRC Enforcement Actions" (Enforcement Policy).

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice," a copy of this letter and its enclosure, along with any submissions you have made to us, will be available electronically for public inspection in NRC's Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

If you have any questions, please contact me at the NRC at (301) 415 - 6140, or by email: <http://www.ask@nrc.gov>.

Sincerely,

/RA/
