SUBJECT: PUBLIC MEETING SUMMARY (LICENSEE PERFORMANCE REVIEW)  
PADUCAH GASEOUS DIFFUSION PLANT - DOCKET NO. 70-7001

Dear Mr. Brown:

This letter refers to the public meeting conducted on December 13, 2004, to discuss our review of your performance in conducting NRC-certified activities at the Paducah Gaseous Diffusion Plant. Your performance was evaluated in the areas of safety operations, radiological controls, facility support, and licensing activities covering the period from January 1, 2003 to September 25, 2004. The meeting also afforded you the opportunity to provide feedback to the NRC regarding your self assessment and perception of the NRC performance review. The meeting was beneficial and provided the NRC with an acceptable level of confidence regarding your plans to address those areas identified as needing improvement.

The names of participating attendees at the meeting and a copy of the presentations are enclosed.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agency wide Document Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Please note that on October 25, 2004, the NRC terminated public access to ADAMS and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the Public Document Room pending resumption of public access to ADAMS.
