

SFPO Licensing Process Conference
Potential Topics and Questions for Discussion in Session 3 (Afternoon Session)

NOTE: The following questions are meant to provide conference participants with an overview of possible topics for discussion, and to encourage participants to provide their own questions or topics. To assist in planning the conference, questions or topics submitted through the Conference Registration Process by January 31, 2005, are appreciated.

- Q1. What can be done to improve the planning efforts prior to submittal of licensing actions?
- Q2. How can the request for additional information (RAI) process be improved? How can the purpose and scope of RAIs be improved? Are there adequate opportunities to interact with SFPO staff regarding RAIs?
- Q3. What different approaches or techniques would you suggest be used regarding resolution of licensing and technical issues?
- Q4. Is there confusion concerning proprietary submittals? How can we best get that information to you (e.g., additional guidance)?
- Q5. What additional information relating to Parts 71 and 72 should be posted on the NRC Web site? Can you find all the NRC documents related to Part 71 and 72 licensing easily on the NRC Web Site?
- Q6. Is the NRC's Part 71 and Part 72 licensing process responsive to the needs of applicants and completed in a timely manner? What can be done to improve it?
