RE: Project No. 0001.GB  
**Materials License Amendment**  
License No. 07-17431-01  
Docket No. 03012739  
Control No. ~~132974~~ *132974*

Dear Ms. Harrison:

We have prepared this correspondence to request an amendment to our referenced Materials License and to provide documentation for changes to our latest license application, dated March 26, 2003.

Duffield Associates currently operates a regional office in Georgetown, Delaware and will be relocating our Philadelphia, Pennsylvania regional office in the near future. We plan to store one or more of our Troxler nuclear moisture-density gauges at each office with the number of gauges stored at each regional office varying depending on workload. Nuclear gauge inventory between our main office in Wilmington, Delaware and our two regional offices will be tracked by inventory sheets at each office. Our R.S.O. will provide oversight for all three offices. The other aspects of our current license, including managerial organization, remain unchanged and as noted in our March 26, 2003 license application.

Subsequently, we request an amendment to the first paragraph on page 2, item 10, of our current materials license as follows: "Licensed material may be used or stored at the licensee's facilities at: (a) 5400 Limestone Road, Wilmington, Delaware, (b) 128 West Market Street, Georgetown, Delaware and (c) 211 North 13<sup>th</sup> Street, Philadelphia, Pennsylvania, and may be used at temporary job sites of the licensee anywhere in the United States where the U.S. Nuclear Regulatory Commission maintains jurisdiction for regulating the use of licensed material, including areas of exclusive Federal jurisdiction within Agreement States." (Note: the Philadelphia regional office will not be occupied until February 1, 2005 and it is unlikely that gauge storage will begin prior to March 1, 2005 at this facility.)

Should you have any questions regarding the above, please do not hesitate to contact us.

Very truly yours,

DUFFIELD ASSOCIATES, INC.

Michael S. Johnson
