Subject: Signature of Management			
<p>Summary:</p> <p>The licensee's response dated November 24, 2004, to the Notice of Violation dated November 17, 2004, was signed by the RSO. I called Mr. Liberatore (Vice President) to verify if he has reviewed the response and if he concurs with the contents of the response.</p> <p>Mr. Liberatore stated that he has seen the response and concurs with the contents. He also stated that the individual (Badger Garner) who signed the letter is the interim Corporate RSO because the permanent Corporate RSO (Stephen Ripplinger) left the company.</p> <p>I reminded the Vice President that NRC policy requires that all correspondence related to a license be signed by a member of licensee's senior management. He stated that he was told that RSO must sign such correspondence, and now all future correspondence will be signed by him or his equivalent in the company.</p> <p>P.S. There is an amendment request from the licensee to name Mr. Garner as interim Corporate RSO.</p>
