<p>Summary:</p> <p>The current license allows use of the NDC Systems Model 104 as a portable gauge. The Model 104 is in fact a Model 104P. In order to use a portable gauge, the licensee needs to submit Appendix B of NUREG-1556 volume 1. This was not submitted as part of the application on January 14,</p> <p>Joseph Sadler stated that he spoke with Bill Heese and there is some confusion. Bill thinks they submitted Appendix B of Volume 1. I explained to Joe that they have not submitted Appendix B of Volume . Only Appendix B of Volume 4 for fixed gauges has been submitted. Joe committed to talk to Bill on Monday and get Appendix B of Volume 1 submitted on as soon as possible.</p>

He said he would get it out today or tomorrow.</p>
