**TECHNICAL SPECIFICATION 6.9.1.5.a ANNUAL DOSE REPORT
SALEM AND HOPE CREEK GENERATING STATIONS
DOCKET NOS. 50-272, 50-311, AND 50-354**

Reference: Letter LR-N04-0066, Technical Specification 6.9.1.5 Annual Reports
Salem And Hope Creek Generating Stations, dated February 19, 2004

PSEG Nuclear LLC hereby submits revised Annual Dose Reports for the Salem and Hope Creek Generating Stations, in accordance with Technical Specifications (TS) 6.9.1.5.a of Appendix A to Facility Operating Licenses Nos. DPR-70, DPR-75, and NPF-57. The revised dose reports are being submitted as a result of a formatting error made when the original dose reports were transmitted.

Enclosures 1, 2, and 3 are submitted for Salem Unit 1, Salem Unit 2, and Hope Creek, respectively. These enclosures contain 2003 data on the number of station, utility, and other personnel receiving exposures greater than 100 mrem/year and the collective exposures according to work and job function for each unit. These revised 2003 dose reports supercede and correct the earlier dose reports transmitted by transmittal letter LR-N04-0066, dated February 19, 2004.

The original data transmittal letter included additional information pursuant to the requirements of TS 6.9.1.5.b and 6.9.1.5.c of Appendix A to Facility Operating Licenses No. DPR-70 and DPR-75 as well as 6.9.1.5.b of Appendix A to Facility Operating License No. NPR-57. This information has not been revised and is not resubmitted.

Should you have any questions or comments regarding this submittal, please contact Mr. Michael G. Mosier at 856-339-5434.

Sincerely,

A handwritten signature in black ink, appearing to read "Christina Perino".

Christina Perino
Director Licensing and Nuclear Safety
