Dear Mr. Gallagher:

As I indicated in my December 1, 2004 letter, in my capacity as the Team Leader for the Nevada Integrated Materials Performance Evaluation Program (IMPEP) review, you have been assigned as the lead reviewer for the common performance indicators Status of Materials Inspection Program and Technical Quality of Inspections. The onsite portion of the IMPEP review of the Nevada program is scheduled for March 14 through 18, 2005.

As the lead reviewer for the Technical Quality of Inspections performance indicator, you are also requested to perform four inspector accompaniments of Nevada materials inspectors prior to the start of the on-site review. Please schedule the individual inspector accompaniments with Stan Marshall, the Supervisor of the Nevada Radiological Health Section for January 30, 2005 through February 5, 2005.

If you have any question regarding this matter, please contact me at (610) 337-5042 or (301) 415-2276.

I appreciate your assistance with this review.

Sincerely,
