Subject: Re: Associated Circuitry meeting

Deann:

I have forwarded your request to Eva Brown (the project manager on fire protection).

Dear Dr. Weerakkody,

I was hoping to make the meeting on Wednesday with industry on NEI-00-01 on associated circuitry, but unfortunately could not. I was hoping to get some feedback on whether there was anything major that came out of the meeting.

At the last meeting I attended, I think you mentioned that there was still work to be done on resolving NRC concerns and that you weren't seeing "light at the end of the tunnel" with industry guidance. Is this still the case?

Any insight you could provide me with would be greatly appreciated. Also, if you have any handouts from the meeting and wouldn't mind forwarding to me, I'd appreciate it.

Thank you!

Best Regards,

Deann
