Are we planning to invite nuclear industry representatives, or are all of the experts NRC employees or contractors?

Dick

It is my understanding that this meeting will be open only to invited HRA experts, so is not a general meeting. Does such a meeting need a notice, other than just an internal one? I am assuming Erasmia will schedule since she has other RES-related work to discuss with the contractors.

Are you preparing a meeting notice for this or is it done and I just missed it?

Thanks!!
