<b>Subject:</b> Clarification Relative to Several Licensing Questions		
<p>I confirmed the following with Mr. Storey:</p> <ol style="list-style-type: none"> <li>1) He understands that the license requested is for locations where NRC has jurisdiction. Reciprocity will be needed for Agreement State locations where NRC does not have exclusive jurisdiction.</li> <li>2) The activities requested do not include calibration of survey instruments.</li> <li>3) Authorized material permitted under this license is that needed to conduct the activities (check sources, etc.) and the material originating from the site. This is not a license that permits storage from another licensee.</li> <li>4) When working at another licensed facility, this license cannot be used to perform activities already authorized by the site's license.</li> </ol> <p>Mr. Storey was told that a letter was being prepared requesting additional information regarding the license application and he should expect it in the next week or so.</p>
