January 14, 2005

Docket No. 03035882
Control No. 136183

License No. 29-30698-01

Mathew L. Swan
Director, Environment, Health and Safety
Purdue Pharma, L.P.
6 Cedarbrook Drive
Cranbury, NJ 08512

SUBJECT: PURDUE PHARMA, L.P., ISSUANCE OF LICENSE AMENDMENT, CONTROL
NO. 136183

Dear Mr. Swan:

This refers to your license amendment request. Enclosed with this letter is the amended license. This amendment adds the new laboratory and waste storage facilities as requested to enable you to move your licensed activities. Prior to release of your current laboratory and waste storage facilities for unrestricted use, you must receive an amendment removing your current facilities from your license. Include in the request, the results of surveys demonstrating that the levels of residual activity in the facilities are acceptable. When you submit the amendment request, please refer to the Control Number at the top of this letter.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. Note that License Condition 19 has been changed to comply with current licensing policies regarding decay-in-storage. Also note that the numbers following the documents cited in License Condition 22 are Accession Numbers for use in locating the documents in ADAMS. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Please note that on October 25, 2004, the NRC suspended public access to ADAMS, and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the NRC Public Document Room pending resumption of public access to ADAMS. The NRC Public Document Room is located at NRC Headquarters in Rockville, MD, and can be contacted at 800-397-4209 or 301-415-4737 or pdr@nrc.gov.

M. Swan
Purdue Pharma, L.P.
