SUBJECT: SWATCH GROUP (US), INC., ISSUANCE OF LICENSE AMENDMENT,  
CONTROL NO. 135466

Dear Mr. Fernicola:

This refers to your license amendment request. Enclosed with this letter is the amended license. The facility at 11817 William Penn Way, Lancaster, Pennsylvania may be released for unrestricted use. The Environmental Assessment for this action was published on January 31, 2005 in the Federal Register, Volume 70, Number 19.

Because of the reduction in your possession limits, you are no longer required to provide financial assurance for decommissioning. The following original documents which previously provided your financial assurance are being returned to you at this time:

Standby Trust Agreement dated May 24, 1994  
Amendment to Standby Trust Agreement dated April 26, 2002

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. In particular, please note that, per your request, your license authorizes only the possession and storage of the material as you are arranging for its distribution. Possession-only licenses are approved for 2-year term limits to provide adequate time for the licensee to arrange for disposal of the radioactive material. If distribution of all licensed material cannot be performed within the 2-year term, you must request renewal for another 2-year term at that time. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

Please note that on October 25, 2004, the NRC suspended public access to ADAMS, and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the NRC Public Document Room pending resumption of
