Dear Mr. Hackenberg:

The purpose of this letter is to inform you of the individual examination results for your applicants on the retake written examination conducted on December 8, 2004, at your facility. This meets the intent of section E.1 of the Examiner Standards (ES 501) in NUREG 1021. Three individuals were administered the examination and one passed. However, we will not be issuing licenses for the applicants who passed - as explained in Section ES-501, paragraph D.3.c. - because any written exam with a passing grade of 81 percent or below is normally held for review until those applicants who failed the examination have had an opportunity to appeal their license denials. This information is considered to be "proprietary" in accordance with 10 CFR 2.390 and it supplements the information contained in the related examination report for your facility which will be issued shortly.

Enclosure 1 is the completed ES-501-2, Power Plant Licensing Examination Results Summary, and is a summary of overall examination results.

Enclosure 2 contains the individual results ES-303-1, Operator License Examination Report, for the applicants. Contained therein are the deficiencies noted for each applicant. In accordance with your Systems Approach to Training (SAT) Program, we expect that you will review these results and provide appropriate remedial training for the individual independent of the overall pass status. The applicant has authorized the release of this information to your facility by signing Block 19A of NRC Form 398.

Thank you for your cooperation in this matter. Please refer any questions you have to me at (610) 337-5183.

Sincerely,

/RA/

Richard J. Conte, Chief
Operational Safety Branch
Division of Reactor Safety
