Dear Mr. Ragland:

In response to your letter sent on January 10, 2005, the management has reviewed the NCR license application dated August 5, 2004 and the letters dated September 2 and 28, 2004 and concurs with the statements and representations contained in them.

The Centro de Radioterapia Auxilio Mutuo (The Center) has made arrangements with an Authorized Medical Physicist who has agreed to proctor the HDR cases. The Center will not conduct any patient treatments with the HDR remote afterloading unit without the physical supervision and until the NCR license number 52-30937-01 is amended to include his name. The Center has not acquired any radioactive sources.

Sincerely yours,
