This is in reference to your application dated November 11, 2004 requesting to renew Nuclear Regulatory Commission License No. 52-23038-01. In order to continue our review, we need the following additional information:

1. Your current license lists two addresses of use: 111 Font Martelo Avenue and Hospital Font Martelo, Inc., 3 Font Martelo Avenue. Your renewal application lists only the 111 Font Martelo Avenue address. Do you wish to retain your authorization to use your Strontium 90 eye applicator at Hospital Font Martelo, Inc.?
2. Item 9 of your application states that a facility diagram is enclosed, however we did not receive this. Please provide a detailed version of your facility diagram indicating the locations of use and storage of your Strontium 90 eye applicator.
3. Item 9 of your application also states that it includes a description of the instrument that will be used to perform required surveys, however we could not locate this information. Please provide a description of this radiation monitoring instrument.
4. Please confirm that you have developed and will implement and maintain procedures for area surveys in accordance with 10 CFR 20.1101 that meet the requirements of 10 CFR 20.1501.
