San Juan, PR 00936-6698

SUBJECT: SAN JUAN CEMENT CO., INC., REQUEST FOR ADDITIONAL INFORMATION
CONCERNING APPLICATION FOR AMENDMENT TO LICENSE, CONTROL
NO. 136060

Dear Ms. Medina:

This is in reference to your application dated November 26, 2004 requesting to amend Nuclear Regulatory Commission License No. 52-25066-01. In order to continue our review, we need the following additional information:

1. Item 1. of your current NRC license identifies your company name as San Juan Cement Co., Inc. and your application identifies your company name as Essroc San Juan. Please confirm whether there has been a formal name change or whether there has been a change of ownership? If there has been a change of ownership you will need to provide additional information as specified in NUREG 1556, Volume 15 (enclosed).
2. Your application identifies several model numbers of devices for which you are requesting authorization, and your application also includes a copy of two Registry of Radioactive Sealed Sources and Devices Safety Evaluation of Device sheets (Registry Sheets) for Ohmart devices. The model numbers provided in Items 5 and 6 of your application do not match those listed on the Registry Sheet. Please specify which Registered Devices you need authorized on your NRC license.
3. Your application requests that Angel M. Cartagena be named on your NRC license as an alternate Radiation Safety Officer (RSO). The NRC currently does not recognize alternate or assistant RSO's. The individual listed on an NRC license as the RSO is the individual responsible for overseeing the entire radiation safety program. However, the RSO may delegate certain tasks to other qualified individuals. The RSO must confirm that those tasks were performed as required and in compliance with NRC regulations and your NRC license. Please confirm that the individual listed as RSO on your NRC license will be responsible for assuring compliance.
4. Your application states that Mr. David Rhoe will be performing test for operation of the on/off mechanism and collecting leak tests samples of your sealed sources. Please describe Mr Rhoe's training and experience.

V. Medina
San Juan Cement Co., Inc.

Please note that on October 25, 2004, the NRC suspended public access to ADAMS, and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the NRC Public Document Room pending resumption of public access to ADAMS. The NRC Public Document Room is located at NRC Headquarters in Rockville, MD, and can be contacted at 800-397-4209 or 301-415-4737 or pdr@nrc.gov.

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 136060. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5355.

If we do not receive a reply from you within 30 calendar days from the date of this letter, we shall assume that you do not wish to pursue your application.

Sincerely,

Original signed by Judith A. Joustra
