Because you have indicated you want to use the Novoste System some additional information is needed. Our website contains licensing Guidance for Novoste and we encourage your use of this guidance. Although you have addressed many of these items in your July 26, 2004 application for renewal not all items were addressed. Please review this document and address all points.

I also noted your comment that you disposed of the 10 CFR 35.500 sources that you possessed. To remove this item from your license you should provide the disposition records which show the source was transferred to an authorized recipient.

As before you may send a reply by facsimile to 610 337 5269 and refer to Mail Control # 135424.
