

TELEPHONE CONVERSATION RECORD		
<b>Licensee Name:</b> Army, Watervliet	<b>Date:</b> February 1, 2005	<b>Time:</b> 3:30 pm
<b>License No.:</b> STB-1554	<b>Docket No.:</b> 040-09011	<b>Control No.:</b> 136080
<b>Licensee Contact:</b> Les Cole (consultant)	<b>Telephone No:</b> 863-424-3222	
<b>NRC Contact:</b> Betsy Ullrich	<b>Telephone No:</b> 610-337-5040	
<b>Subject:</b> survey of room for thorium-232		
<p>I contacted Mr. Cole to discuss the additional information submitted with the letter dated January 25, 2005. The only question I had concerned the assumption that removable contamination was 2% of the total; however, using the data in the tables submitted in the scoping survey, I do not calculate the same value. My values for removable contamination based on the Room 255 surveys 3 to 16% and for Room 232 the values were 4 to 11%. He could not give me an immediate answer, so we agreed I would call at 9 am on 2/2 to discuss.</p> <p>2/2/05 9:05 am</p> <p>Mr. Cole found the data tables on which the 2% value was based. In transcribing the values from one data sheet to another, he carried over a different set from another survey. He has worked out the values, and will have to use the NRC assumed 10%, which means that their surveys will revert back to the standard DCGL. He will submit the revised information.</p> <p>I confirmed that he could provide me with the revised information by email.</p>		
<b>Action Required/Taken:</b> copy of telephone record to LAT for ADAMS package. Wait for revision. Action due 3/6, call by 2/18 if not yet received.
