<p>Subject: I spoke w/ Charlie regarding the renewal application Ledoux submitted. This license was last renewed in 1994. I informed Charlie he would have to submit a complete renewal application using NUREG-1556, Vol. 17, which he was not familiar with. We went to the NRC website and reviewed the content of section 8 and Appendix C of Vol. 17. I informed him he could use Appendix C to submit the information and attach additional information as instructed. The licensee also submitted their Radiation Safety Manual w/ the renewal application. We discussed his options regarding including this in the re-submitted renewal application he will start drafting and he decided to not include it. I informed him I would draft a deficiency letter covering what we discussed today.</p>
