Subject: Financial Assurance Documents			
<p>Summary:</p> <p>I returned a call to Scott Sproel, Senior Attorney for Enviroment and Safety ant Unilever United Sates. Approximately two weeks ago, I sent Mr. Sproel an deficiency letter via fax and mail concerning Financial Assurance for a new license for Conopco, Inc. He requested to have the original copies of the Surety Bond and the Standby trust Agreement (with attachments) sent to him so that they could respond to the defiecicies addresses in the letter. I told him that to my understanding, those documents could not be sent back unless we had others in place. He asked if that was so even thought the new license was still pending. I told him I would gather further information and get back to him.</p> <p>Afer speaking with Dave Everhart and Jim Dwyer, I called Scott back and informed him that the we could send him the original documents submitted for financial assurance.</p> <p>I requested to have the financial assurance documents sent via certified mail.</p>
