SUBJECT: INOVA MOUNT VERNON HOSPITAL, ISSUANCE OF LICENSE AMENDMENT,  
CONTROL NO. 136429

Dear Ms. Rieger:

This refers to your license amendment request dated February 3, 2005. Enclosed with this letter is the amended license listing your new Radiation Safety Officer, deleting six previously listed authorized users, and adding two authorized users. Please note that eleven individuals listed on your request were not added as authorized users because your amendment request did not provide adequate documentation to add the individuals as authorized users of byproduct material on your license. Based on a conversation between Mr. Joseph Nick, of this office, and Mr. Mike Taylor, of your facility, these eleven individuals will be the subject of a future amendment request from you after the appropriate documentation is available.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

*An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).*

Please note that on October 25, 2004, the NRC suspended public access to ADAMS, and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the NRC Public Document Room pending resumption of public access to ADAMS. The NRC Public Document Room is located at NRC Headquarters in Rockville, MD, and can be contacted at 800-397-4209 or 301-415-4737 or [pdr@nrc.gov](mailto:pdr@nrc.gov).
