Subject: Deficiency letter response			
<p>Summary:</p> <p>I spoke with Phyllis (who returned my call for Dusty Nagle as he is unavailable) about a response to the deficiency letter dated February 3, 2005. They would like to submit the requested information with their license renewal request, which they plan on sending in by the end of April 2005. Foxfire's license expires on May 31, 2005. They will submit the information described in Appendix B of NUREG-1556, Volume 1 as part of their renewal package. The licensee stated that they are receiving their NRC mail at the new P.O. box. After discussing this with John Kinneman, we determined that their request would be acceptable and we can issue the license amendment for the mailing address change without the updated information at this time.</p>			
Action Required/Taken: process amendment request
