Re: Quehanna Decommissioning Project FSSR; License Number 37-17860-02

03029298

Dear Mr. Kottan:

In a letter dated June 23, 2004, the Commonwealth of Pennsylvania Department of Environmental Protection (PADEP) submitted the Quehanna Decommissioning Project Final Status Survey Plan to Mr. John Wray for NRC review. Please be advised that our PADEP contractor (Scientech) has finished the survey work described in that plan. The final results of the survey work have been assembled into a Final Status Survey Report (FSSR). At your request, our contractor is sending three copies of the FSSR directly to you for NRC review.

This letter is being sent separately from our office, but a copy should arrive with the FSSR. In that we need to know the NRC's path forward related to time-line and for any anticipated additional confirmatory survey work by ORISE, we would greatly appreciate an expedited review of the FSSR. If you have any questions on the FSSR, please feel free to call Bryan Werner of my staff at (717) 787-2781.

Sincerely,

David J. Allard, CHP
Director
Bureau of Radiation Protection
