Joyce Susko	Southern Ocean County Hospital	609-978-8900	
Person(s) Calling: Joe Nick			
Subject: Request for Additional Information			
<p>Summary:</p> <p>I asked the licensee's representative for additional information regarding the recent renewal for a material license (dated 12/1/04). The information was needed to clarify whether the licensee wanted to authorize Arkady Finkle, M.D. as an authorized user on the license renewal for activities per 10 CFR 35.100, 35.200 and 35.300. The license renewal application did not provide adequate certification information for the authorization of activities per 35.300. The licensee had submitted a certification from the American Board of Radiology to qualify Dr. Finkel for diagnostic radiology. However, the certification must be for radiology or therapeutic radiation oncology per 35.300. Therefore, the licensee would have to provide further information including a preceptor statement with experience for Dr. Finkel. Ms. Susko stated that they would prefer to have the license renewal issued authorizing Dr. Finkel for 35.100 and 35.200 at this time. She wanted to confirm this information with the Radiation Safety Officer (RSO) and she told me she would call back in the next day.</p> <p>Ms. Susko called back on 3/16/05 and confirmed that the RSO (Michael Nunno) had agreed to the above. She stated that they would submit a license amendment request in the future if they wanted to authorize Dr. Finkel for activities per 10 CFR 35.300.</p>			
Action Required/Taken: Prepare the license renewal for issuance.
