SUBJECT: WAYNE V. ARNOLD, D.O., REQUEST FOR ADDITIONAL INFORMATION
CONCERNING APPLICATION FOR AMENDMENT TO LICENSE, CONTROL
NO. 136571

Dear Dr. Arnold:

This is in reference to your letter dated February 14, 2005 requesting to amend Nuclear Regulatory Commission License No. 37-28333-01. In order to continue our review, we need the following additional information:

In support of your request to authorize Dr. Michael Boriss, D.O., for materials permitted under 10 CFR 35.200, please note the written certification signed by Louis A. Papa, D.O., a preceptor physician authorized user, described supervised clinical experience that was gained by Dr. Boriss more than seven years ago. 10 CFR 35.59 states the experience must have been obtained within seven years preceding the date of the application or the individual must have had related continuing experience since the required experience was completed. (Please note the 200 hour training program completed on September 2004 meets the 200 hour classroom and laboratory training requirement of 10 CFR 35.920 and also 35.59 for recentness of training.) Please provide one of the following, as applicable to meet the requirement for recentness of experience:

- a. Previous license number (if issued by NRC) or a copy of the license (if issued by an Agreement State) on which Dr. Boriss was specifically named as an authorized user for the uses requested; or
- b. Copy of the certification(s) for the board(s) recognized by NRC under 10 CFR Part 35, Subparts D, E, F, G, or H, and as applicable to the use requested; or
- c. If applicable, description of recent related continuing education and experience as required by 10 CFR 35.59.

NRC Form 313A (enclosed) may be used to document this information. You may find Appendix D of NUREG-1556, Volume 9, available at the licensing guidance link listed

below, helpful in completing NRC Form 313A. Please note that if the board certification, or training and experience, was received more than 7 years ago, evidence of recentness of training in accordance with 10 CFR 35.59 must also be submitted.

Current NRC regulations and guidance are available at the NRC Web sites listed below or by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 9:00 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 136571. If you have any technical questions regarding this deficiency letter, please call John Nicholson at (610) 337-5236.

If we do not receive a reply from you within 30 calendar days from the date of this letter, we shall assume that you do not wish to pursue your application.

Sincerely,
