| Subject: Request for Additional Information  |  |                              |  |
| <p>Summary:</p> <p>I asked the licensee's representative for additional information regarding the recent application for a material license (dated 12/27/04).</p> <ol style="list-style-type: none"> <li>1. The application did not request authorization for <i>in vitro</i> kits per 31.11. Dr. Visconti stated that they no longer use these kits and the authorization is not required.</li> <li>2. The application did not request authorization for the use of Cs-137 sources, authorized per 35.400, for the calibration of instruments. I asked if the licensee still wanted to retain this authorization? Dr. Visconti stated that they do not calibrate their instruments in-house (they are sent to a vendor for calibration), but they would like to keep this as an available option. Dr. Visconti also stated that she would be the authorized non-medical user for these sources..</li> </ol> |  |                              |  |
| Action Required/Taken: Prepare the license renewal for issuance.   |  |                              |  |
