<BODY><P>Jim,</P>

<P>I read the attached Environmental Assessment (EA) related to an amendment
request by Central Virginia Laboratories & Consultants.</P>

<P>I agree with the conclusion stated in the EA that there are no significant environmental
impacts. Typically licensees performing laboratory analytical services do not use
possess significant quantities of radioactive materials and will have procedures in place to
prevent contamination of their samples and facility in order to provide quality analytical
services.</P>

<P>From a regulator's perspective, it is also in the public interest to make decisions regarding
the status of unrestricted use of licensed facilities before surveys and other historical data
become loss over time.</P>

<P>Thank you for the opportunity to comment on this EA.</P>
