SUBJECT: Request for Termination of NRC License No. 45-30857-01

Dear Sir:

In accordance with 10 CFR 30.36(d), this notification is a request, and serves as notice, for the immediate termination of the subject license, NRC License No. 45-30857-01. This amended license was issued to SI International on May 12, 2004.

SI International, or MATCOM before purchase by SI, has not initiated any of the activities or procured any of the material or equipment authorized by this license, nor is our intent to do so. We do understand the termination of this license will require application for a new license in the event SI International requires licensing in the future.

SI International also desires this to be a 'good faith' termination as we have complied, and will continue to comply, with all applicable CFRs and NRC direction throughout the application process and active periods of the license.

We also appreciate the support and assistance provided to us by the staff of the NRC for Region 1 throughout our licensing period and the application process.

Sincerely,

A handwritten signature in cursive script, appearing to read "S. Bradford Antle".

S. Bradford Antle
President and Chief Operating Officer
