Subject: Request for Additional Information for License Amendment			
<p>Summary:</p> <p>I spoke to the the licensee representative (Leanne Farr) to request additional information regarding the recent letter requesting an amendment for the NRC materials license (dated 2/23/05). The licensee's letter notified us regarding a reconfiguration for the areas of use within the same facility. When were the areas intended to be used? Ms. Farr stated that they started to use the new facility layout on about April 4, 2005.</p> <p>I also asked if the licensee could provide a certificate for specific training areas to support the statement that Dr. Longhitano had 200 hours of classroom and laboratory training. Ms Farr said that she would get the record from Dr. Longhitano and send a copy to us via facsimile.</p>			
Action Required/Taken: Issue license amendment after fax is received.
