

U.S. NUCLEAR REGULATORY COMMISSION		Conversation Date	April 29, 2005
<b>TELEPHONE CONVERSATION RECORD</b>		Time	11:00 a.m.
Mail Control No.:	License No.:	Docket No.:	
136752	01-30675-01	030-35820	
Licensee/Applicant Participant(s):	Organization:	Telephone No.:	
Robert Cunningham, P.E./QA Officer	Gallet & Associates	205 942 1289	
Person(s) Calling: Sattar Lodhi			
Subject: Transfer of Material			
<p>Summary:</p> <p>Licensee requested termination of its license and submitted NRC Form 314 that stated that the gauges are transferred to Gallet &amp; Associates, Inc. I called the licensee to verify if they also had materials license from Alabama, because it appeared that the same company was acquiring the gauges.</p> <p>Mr. Cunningham confirmed that they had license from Alabama (No. 991), and they obtained the NRC license because they had to use the material in New Jersey for one or two years. However, the project in New Jersey is finished and they do not need the NRC license now.</p>			
Action Required/Taken: Document
