Chuck

Thanks for keeping me updated. Instead of sending 2000 page documents (which will take sometime to get scanned into ADAMS) is there a executive summary or cover letter and summary report for either of these documents? This would make both of our lives much easier.

Thanks

Alicia

Henry, it looks like we can print out the documents here from the RIMS microfilm, even though one is nearly 2000 pages and one of the other three "Interim Orders" is nearly 300 pages (the other two of the three interim orders are very short). It looks like all three interim orders state a cdf of $7.6 \times 10E-6$ so collectively they may be Reference 1A. I will send all of them two you and let you have a look before I send them to NRC. You should have them to look at early next week.
