SUBJECT: TRICAT, LICENSE AMENDMENT, CONTROL NO. 136829

Dear Mr. Gochoco:

This refers to your license amendment request. Enclosed with this letter is the amended license. Please note that Dr. Pomerantz's authorization was expanded to include oral administration of iodine-131. Dr. Pomerantz was not granted authorization for parenteral administration of other radionuclides because the documentation provided did not list experience with these types of cases.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are available at the NRC web site at <http://www.nrc.gov/materials/miau/mat-toolkits.html> and <http://www.nrc.gov/who-we-are/governing-laws.html> or by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 9:00 p.m. EST, Monday through Friday (except Federal holidays).

Thank you for your cooperation.

Sincerely,
