Subject: Questions on Renewal		
<p>Summary:</p> <p>The Decommissioning Plan Cost Estimate of 2005 submitted with the renewal is not consistent with the March 4, 1992 Decommission Funding Plan. Please update the Decommissioning Plan with appropriate supporting documents.</p> <p>Please resubmit the Statement of Intent with the title of the person signing and the document dated.</p> <p>Please submit information on the criteria for releasing a laboratory for unrestricted use.</p> <p>You are requested to review Health Physics Position Paper 36 and 66 for considerations in how the laboratories are posted.</p> <p>Major Hamilton asked about a request to lower the number of half lives before disposing of radioactive material. I reported that the renewal license would state guidance as given in Regulatory Issue Summary 2004-17 which does not require a half-life requirement.</p> <p>Major Hamilton requested a followup letter documenting my request for information.</p>		
Action Required/Taken: Will followup with a licensing deficiency letter.
