Place: LAT

I have completed a preliminary review of your March 25, 2005 amendment request to remove the Cs-137 and Am-241 sealed sources and have an additional question as follows:

Please provide a copy of records indicating receipt of the byproduct material from the recipient of the sources. You may fax this information to 610 337-5269 and refer to Mail Control 136788.

Thank you in advance.
