<b>Mail Control No.:</b> N/A <b>Inspection No.:</b> 2005-001	<b>License No.:</b> SNM-1946	<b>Docket No.:</b> 070-03010
<b>Person Called:</b> Alan Zirkes, Radiation Safety Officer	<b>Licensee:</b> Canberra Dover, Inc.	<b>Telephone No.:</b> 973-361-5600
<b>Person Calling:</b> Steven Courtemanche/(610) 337-5075		
<b>Subject:</b> NMMSS Inspection.		
<p><u>Summary:</u> 5/13/2005 13:15 I left a message on Mr. Zirkes' voice-mail for him to get back in touch with me.</p> <p>14:00 Mr. Zirkes returned my phone call. I informed him of the probable need to access a NMMSS site for a form to update the information on the Authorized Contacts. When I went over the information currently on the form, he stated that the NRC had required his site to be completely separate from the Warrington, PA facility in terms of licensure and responsibility. I went over the Licensing Assistance Team forms and determined that the Identification number for the license did not match the one provided by NMMSS.</p> <p>14:15 I put in a phone call to Jeff Anderson, NRC Team Leader and left him a message to get back in touch with me.</p> <p>5/16/2005 09:00 Mr. Anderson returned my call. He informed me that the designation ZQL had been decommissioned awhile ago. The correct designation for Canberra Dover was ZWD. I agreed to have changes made in Region I's record system.</p> <p>10:00 I informed Mr. Zirkes of the correct designation for his facility. He requested that I send in Form D-3, the website address and the designation number.</p>
