Re: License renewal for Community College of Allegheny County
license no. 37-18212-01
docket no. 030-14673
mail control no. 136165

Dear Ms. McCalip:

As we discussed on the telephone today, Friday April 1, 2005, I will retain license condition # 12 in your current license in your renewed license. This condition limits your possession limits for certain long lived radionuclides so that financial assurance for decommissioning purposes is not required.

For Item 10 of the renewal application, please refer to section 8.10.6 "SAFE USE OF RADIONUCLIDES AND EMERGENCY PROCEDURES" on pages 8-37 through 8-39 and Appendix C, Item no. 10 on page C-10 of NUREG-1556, Volume 11. Note the "Response from Applicant" section on page 8-39. You are requested to submit your procedures for safe use of radionuclides and emergencies. Your submission should include procedures for maintaining security of licensed radioactive materials. As an alternative, you may state "We will adopt the procedures for the safe use of radionuclides and emergencies as published in Appendix R of NUREG-1556, Volume 11,...".

Your renewal application did not include the requested procedures or the standard language adopting Appendix R. Please either submit the requested procedures or a letter adopting the Appendix R procedures.

We can not accept electronic mail for items that will be incorporated into the license. You may submit the material requested to my attention by mail or fax to 610-337-5269. The mailing address is:

Licensing Assistance Team
Division of Nuclear Materials Safety
U.S. Nuclear Regulatory Commission, Region I
475 Allendale Road
King of Prussia, PA 19406-1415

Be sure to include a signature and the mail control number for this renewal action **136165** on any correspondence you send regarding this action.

I will continue my review upon receipt of the requested information. If you have any questions regarding what is being requested, please do not hesitate to contact me at 610-337-5236. In order for me to continue prompt review of your application, I would appreciate it if you could submit your response to this note by Monday April 25, 2005.

Thank you.
