<b>Subject:</b> Labeled metal shipping container		
<p>I received a voice mail message from Dr. Kurtze on Friday May 27, 2005 regarding a metal pipe container that he had found and called our office about. The pipe was about 18" long, 4" diameter with threaded caps on each end. A metal plate stating "Caution Radioactive Material" was welded to the pipe. I had gone out to St. Joe's to check on this on May 4. Dr. Kurtze called to inform me he had their waste vendor, BioMed, come out to look at the pipe. It turned out to be an empty shipping container. BioMed took the container.</p>
