Dear Ms. Modes,

Please change the wording of item # 18 A. on our Material License (Amendment No. 42) for clarification, as many of our "Radiation Workers" work under a union contract to perform the physical labor involved in installing, relocating, removing and replacing radioactive gauges. Please revise 18. A. as shown in bold lettering below...

18. A. Installation, initial radiation surveys, relocation, removal from service and replacement of the gauge shall be performed by or "under the direct supervision of" Raymond Hundley III, Brad Day or other "Authorized Users" who have completed the training specified in application dated March 8, 2005 or by persons specifically licensed by the U.S. Nuclear Regulatory Commission or an Agreement State to perform such services.
