Subject: General Licensed Gas Chromatograph			
Summary: Based upon the request for additional information, it was submitted that this source was a generally licensed source. I verified that the gas chromatograph had a label as described in 10CFR32.51. I verified that he had not other sources of radioactivity. I told Mr. Schorr that a specific license is not required, that the licensing action would be voided, and that a "void" letter would be sent.
