Organization: University of Puerto Rico			
Subject: Inspection and waste disposal options			
<p>Summary:</p> <p>Mr. Pagan-Lisboa indicated that University staff will be meeting with the Commonwealth's environmental agency on Monday to discuss permitting of the incinerator for burning radioactive waste. In addition, Mr. Pagan-Lisboa indicated that the technician for the incinerator company performed his service visit and provided recommendations. The University is working on getting the funding to address the recommendations. Also, Mr. Pagan-Lisboa indicated that he is still waiting for a quotation and procedures from Clean Harbors to transport radioactive waste via plane.</p> <p>I informed Mr. Pagan-Lisboa of the inspection results and of NRC's request for more information about long-term storage and incineration. He responded that he will address these issues when he receives the letter.</p>
