SUBJECT: UPMC PRESBYTERIAN SHADYSIDE, VOIDANCE OF APPLICATION FOR
LICENSE AMENDMENT, CONTROL NO. 134307

Dear Ms. Concordia:

This concerns the subject application for an Amendment to your material license. We have completed our review and based on the information provided for Mr. Chen's training and experience we have determined he does not meet the requirements in 10 CFR 35.51. Mr. Chen cannot be listed as an authorized medical physicist (AMP) on the UPMC Presbyterian Shadyside license with the information provided. Specifically the NRC's Advisory Committee on Medical Use of Isotopes determined that the two years of experience submitted for Mr. Chen's was completed during Mr. Chen's pursuit of his Master of Science and does not fulfill the requirement for training and experience of an AMP.

Now fulfilled

We consider this action voided without prejudice to the re-submission of an application with additional information.

Sincerely,

Thomas K. Thompson

To whom it may concern:

I am an ABR Board Certificated Therapeutic Physicist working at Memorial Sloan-Kettering Cancer Center at Mercy Medical Center as chief physicist. Between 1995 and 2002 I worked at SunYat-Sen Cancer Center in Taiwan as Chairman of Medical Physics Department. During my working in Taiwan, I was appointed as a consultant at Radiation Oncology Department at Mackay Memorial Hospital. To my best knowledge, this is to certify Mr. HUNGCHENG CHEN (陳弘政), born on March 18, 1967 has received master degree in medical physics from National Young-Ming University in Taiwan. From 1996 to 2002, he had appropriate training for the operation of Nucletron MicroSelectron HDR unit at Mackay Memorial Hospital in Taiwan under my directly supervision. Based on my evaluation, he has an equivalence of two full years training for the operation of Nucletron MicroSelectron HDR unit. Based on his credential, training and experience, I strongly believe that Mr. Chen is capable of doing Medical Physics Portion of HDR procedure at University of Pittsburgh Medical Center.
