Subject: Change of Control & Name Change			
<p>Summary:</p> <p>The licensee requested (letter dated April 18, 2005), that the name of licensee be changed. I called Mr. Rivera to verify if the ownership of company had changed.</p> <p>He stated that the ownership changed in June 2002, and they had notified the NRC about the change in ownership. He also stated that at that time a condition of sale was that the name will not change immediately. Now the company has decided to change the name. I verified that the licensee had informed the NRC (ML021790008) about the sale and NRC had provided the required consent.</p> <p>Mr. Rivera also requested that the name of RSO be changed because the named RSO is changing positions and they have another individual who received the required training last year in Orlando, FL. He requested that Jerry Ruiz be named new RSO.</p>
