Subject: RE: Temple East, Inc.

Dear Shirley:

1-The name change does not involve any change of ownership/control or any material transfer.

2-We no longer need authorization for 35.300 materials.

3- Please specify the items that are lacking in the renewal application.

Please call me if you have any questions regarding the application.

Regards,

Lily Lodhi

Licensee: Temple East, Inc.
License # 37-11704-01
Docket # 03003147
Control # 137055

Dear Dr. Lodhi:

In order to continue our review of your renewal application, we need the following additional information:

1. Please resubmit your renewal application, using the guidance in the NUREG-1556, Volume 9. Note that new Part 35 and the guidance in this NUREG generally do not require the submission of detailed procedures during the licensing process. As described in the NUREG, in many cases a licensee is required only to supply a statement regarding the development, implementation, and maintenance of written operating and emergency procedures. Appendix C of the NUREG should be helpful in identifying the information required by the NRC to process your request for license renewal. Pages E-6 through E-16 of the NUREG show a sample license application.

2. It appears there is a name change of your license. The name on your current license is "Temple East, Inc." On your application under item 2, the name was Temple East, Inc. d/b/a/Northeastern Hospital." Please verify the name change does not involve any change of ownership/control or any material transfer.

3. In your application you asked for authorization usage of 35.300 material, please confirm the total activities you would like to have for this materials. Also, provide us with the name(s) and qualifications of authorized user(s) for this material.

In order to continue prompt review of your application, we ask that you submit your response to this letter within 30 calendar days from the date of this letter.

Thanks,

Shirley Xu
