June 13, 2005

Ms. Nancy Osgood
Director, Spent Fuel Project Office
Office of Nuclear Material Safety and Safeguards
US Nuclear Regulatory Commission
Washington, DC 20555-001

SUBJECT: Certificate of Compliance No. 9234 for the Model No. NCI-21PF-1 package

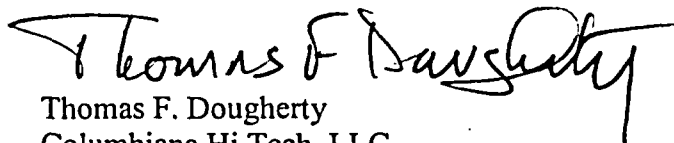

Dear Ms. Osgood,

Please issue Revision No. 19 of the NRC Certificate of Compliance, for the Model No. NCI-21-PF-1 overpack, to amend Section 6 to read as follows:

6. The Model 30B cylinders must be fabricated, inspected, tested, and maintained in accordance with American National Standard N14.1 (1990 or subsequent edition in effect at time of manufacture). Cylinders must be fabricated in accordance with Section VIII, Division I, of the ASME (American Society of Mechanical Engineers) Boiler and Pressure Vessel Code and by ASME code stamped.

We have a customer who would like to ship 30B cylinders, which were manufactured in accordance with ANSI N14.1 (1995 edition), and based on the current certificate is unable to ship these cylinders inside the Model No. NCI-21-PF-1.

Sincerely,

Thomas F. Dougherty
